

Overview: Downpayment + Phase 1 (new behavior)

When Branch Admin creates an installment AR with **Downpayment + Phase 1**:

What happens	Detail
Two AR rows	Two separate AR numbers (e.g. AR# 260453 downpayment, AR# 260454 Phase 1)
Linked as one pair	Downpayment row is the leader; Phase 1 is the paired row
List display	Downpayment row shows “Downpayment”; Phase 1 shows “Phase 1 · paired with AR# ...”
Finance acts on one, system updates both	Verify, Return, or Reject on either row affects both ARs in the pair
SMS amount	Payment confirmation SMS uses the combined total (downpayment + Phase 1)

Part B — Branch Admin workflow (after Finance Return or Reject)

4. Fix what Finance asked for (usually reference and/or attachment).

5. Click **Save & Resubmit Both**.

The screenshot shows the 'Acknowledge Receipt' form in the Little Champions Academy Inc. system. The form is for a Kindergarten student with Mobile Number 639619589028. The Issue Date is 14/06/2026, and the Payment Method is Online Banking. The Reference Number is 123. The form includes a search filter, a total acknowledgement receipts section, and a table showing 2 of 2 receipts. The first receipt is for INVOICE 260457, with a status of 'Submitted'. The form also has a 'Save & Resubmit Both' button.

6. System result:

- **Both** rows → status **Submitted** again
- Finance must verify again

Who can resubmit: Only the **creator** of the AR.

B.2 — Handle REJECTED AR (cannot resubmit)

1. Rejected ARs stay on the **main** list with status **Rejected** (not on Returned tab).
 2. **Resubmit is not available** for Rejected.
 3. Branch Admin must:
 - Read the [Rejected] note (View / open receipt details)
 - **Create a new Acknowledgement Receipt** for the student
 - Do **not** reuse the rejected AR for enrollment
